List nominal pipe diameter(s) and length:

All sanitary sewer lines will be engineered and installed according to the sewer standards of the City of Ringgold. Any and all proposed changes to the approved engineered plans will require written approval by the City of Ringgold prior to be installed. I understand that a licensed utility contractor will be required to be on site and responsible for all installation of sewer infrastructure. All testing, inspections, as-builts (digital and hard copy) and bonds will have to be received and approved prior to acceptances by the City of Ringgold.

Submitted by: _____ Date: _____

Owner
